Sekisui Europe Announces Methyl Acetate Price Increase

Dallas, August 15, 2016- Sekisui Specialty Chemicals announced today that it will increase the price of methyl acetate grades produced at its plant in Tarragona, Spain, by up to €100/MT. This increase will take effect September 1 2016, or as contracts and agreements allow.

The company manufactures a full range of methyl acetate grades at its plant in Spain; these products are marketed by Sumitomo Corporation.

Sekisui Specialty Chemicals' primary product is Selvol, a line of high performance polyvinyl alcohol polymers and copolymers used in paper, adhesive, packaging, construction, personal care, and many other specialty formulations. Sekisui Specialty Chemicals is a subsidiary of the Sekisui Chemical Group, a multibillion dollar company that delivers a wide range of products and services to enrich people's lives. The company is comprised of core businesses and technologies in housing, social infrastructure, and chemical solutions.
